

# COPAIMO

## INDIVIDUAL ROSTER CARDS

---

*Raise them. Explore with them. Fight beside them.*

**47 COPAIMO • ONE CARD PER MONSTER**

EST. marks draft field measurements where source sheets supplied no canon value.

Roster numbering replaces all source-sheet production codes.

#001

# WIMLOO

The Breezeborn Copaimo

EARTH / WIND

## FIELD DESCRIPTION

Wimloo gather on the highest branches whenever the wind changes direction. Travelers have learned that a forest falling suddenly quiet around them usually means a Wimloo sensed danger first.

## BEHAVIOR

Curious, mischievous, social

## HABITAT

Grasslands bordering forests; forest canopies

## HEIGHT

0.6 m

## WEIGHT

12.5 kg

#002

# WIMBARA

The Verdant Sage Copaimo

EARTH / WIND

## FIELD DESCRIPTION

Wimbara patrol the same woodland routes for years and remember every creature living along them. Lost children who follow the sound of its staff striking roots are almost always guided safely home.

## BEHAVIOR

Protective, wise, disciplined

**HABITAT** Deep forests; ancient woodland

## HEIGHT

**1.9 m**

## WEIGHT

**71.0 kg**

#003

# WIMSOUL

The Tempest Guardian Copaimo

EARTH / WIND

## FIELD DESCRIPTION

Old groves are said to survive fires and violent storms when a Wimsoul has accepted them as its territory. It rarely appears directly, preferring to answer worthy Wardens with a single circling leaf.

## BEHAVIOR

Noble, serene, unwavering

**HABITAT** Ancient forests; sacred groves

## HEIGHT

**2.7 m**

## WEIGHT

**132.0 kg**

#004

# BELLUMO

Chime Jelly

LIGHT / SOUND

## FIELD DESCRIPTION

Bellumo ring softly when someone nearby is hiding strong emotions. Their tones become warmer around trusted companions, which has made them welcome guests in hospitals and Warden dormitories.

## BEHAVIOR

Bright, musical, affectionate

**HABITAT** Shrines; quiet gardens; crystal caverns

**HEIGHT**

EST.

**0.5 m****WEIGHT**

EST.

**8 kg**

#005

# CHIMELLUNE

Resonant Chime

LIGHT / SOUND

## FIELD DESCRIPTION

Chimellune can match the rhythm of another creature's heartbeat after hearing it only once. Ensembles of them are known to calm frightened herds before anyone realizes danger has passed.

## BEHAVIOR

Calm, attentive, harmonious

**HABITAT** Temple paths; echoing valleys

**HEIGHT**

EST.

**0.9 m****WEIGHT**

EST.

**22 kg**

#006

# SYMBELLIS

Grand Chime Sovereign

LIGHT / SOUND

## FIELD DESCRIPTION

A Symbellis performance can be heard clearly through stone walls without disturbing the air between. Ancient treaties were traditionally signed only after one sounded a perfectly clear note.

## BEHAVIOR

Regal, composed, benevolent

**HABITAT**      Grand sanctuaries; luminous halls

**HEIGHT**      EST.

**1.3 m**

**WEIGHT**      EST.

**46 kg**

#007

# BRAMBLEET

Berry Brambleball

EARTH

## FIELD DESCRIPTION

Brambleet roll through berry patches at dusk and accidentally scatter more seeds than they eat. Farmers tolerate their raids because fields visited by them often grow thicker the following spring.

## BEHAVIOR

Restless, wary, tenacious

**HABITAT** Hedgerows; berry thickets

**HEIGHT**

EST.

**0.5 m****WEIGHT**

EST.

**18 kg**

#008

# THORNVINE

Snare Bramblebeast

EARTH

## FIELD DESCRIPTION

Thornvine mark safe paths through tangled woodland by bending their own vines away from the trail. Anyone who damages those markers may find the same path completely sealed the next morning.

## BEHAVIOR

Watchful, territorial, stubborn

**HABITAT** Dense bramble fields; forest edges

**HEIGHT** EST.

**1.0 m**

**WEIGHT** EST.

**52 kg**

#009

# BRIAROK

Apex Bramble Titan

EARTH

## FIELD DESCRIPTION

Briarok remain motionless for so long that birds nest in their upper branches. When the forest is threatened, every nearby root seems to move with it as though the woodland shares a single will.

## BEHAVIOR

Stoic, dominant, protective

**HABITAT** Ancient thornwoods; overgrown ruins

## HEIGHT

EST.

**2.1 m**

## WEIGHT

EST.

**180 kg**

#010

# CHALKNUCKLE

Quarry Pugilist

EARTH

## FIELD DESCRIPTION

Chalknuckle settle arguments by striking quarry walls in carefully measured patterns. The clearest echo determines the winner, though outsiders rarely understand how the judgment was reached.

## BEHAVIOR

Patient, dutiful, competitive

**HABITAT** Chalk quarries; dry badlands

**HEIGHT**

EST.

**1.8 m****WEIGHT**

EST.

**210 kg**

#011

# CHALKBREAKER

Quarry Breaker

EARTH

## FIELD DESCRIPTION

Chalkbreaker are trusted to open mountain roads after landslides. They always stack the broken stone into neat cairns afterward, and become visibly annoyed if anyone knocks those cairns over.

## BEHAVIOR

Resolute, disciplined, blunt

**HABITAT** Deep quarries; mountain passes

**HEIGHT**

EST.

**2.4 m****WEIGHT**

EST.

**480 kg**

#012

# CINDRAKE

Ash Hatchling

FIRE / WIND

## FIELD DESCRIPTION

Cindrake sneeze smoke rings when excited and chase them until they fade. A hatchling that produces a perfectly round ring is believed to be ready for its first serious training journey.

## BEHAVIOR

Bold, excitable, impulsive

**HABITAT** Ash fields; volcanic foothills

## HEIGHT

EST.

**0.6 m**

## WEIGHT

EST.

**20 kg**

#013

# EMBRAKE

Coal Whelp

FIRE / WIND

## FIELD DESCRIPTION

Embrake race rising columns of warm air around volcanic cliffs. They return with blackened scales and great pride, especially when another Copaimo witnessed the entire climb.

## BEHAVIOR

Daring, alert, energetic

**HABITAT** Cliff nests; volcanic skies

**HEIGHT** EST.

**1.3 m**

**WEIGHT** EST.

**65 kg**

#014

# PYRRAKE

Cinder Drake

FIRE / WIND

## FIELD DESCRIPTION

Pyrrake sleep on cooled lava flows and awaken moments before pressure builds beneath them. Mining settlements watch their migration closely, treating an unexpected departure as an evacuation warning.

## BEHAVIOR

Proud, fierce, vigilant

**HABITAT** Volcanic peaks; caldera skies

**HEIGHT**

EST.

**2.1 m**

**WEIGHT**

EST.

**145 kg**

#015

# GLACIPUP

Snowdrift Pup

ICE

## FIELD DESCRIPTION

Glacipup dig shallow snow dens for smaller creatures caught in sudden storms. Their crystal collars hum near thin ice, making them valued companions on frozen routes.

## BEHAVIOR

Playful, loyal, sturdy

**HABITAT** Snowfields; village outskirts

**HEIGHT**

EST.

**0.6 m****WEIGHT**

EST.

**18 kg**

#016

# FROSTRAIL

Trailrunner

ICE

## FIELD DESCRIPTION

Frostrail run the same tundra paths until their footprints harden into smooth blue trails. Experienced Wardens follow these routes because they usually connect shelter, water, and safe crossings.

## BEHAVIOR

Eager, focused, dependable

**HABITAT** Frozen trails; tundra routes

**HEIGHT**

EST.

**0.9 m****WEIGHT**

EST.

**32 kg**

#017

# AVALANOX

Blizzard Hound

ICE

## FIELD DESCRIPTION

Avalanox howl into approaching blizzards and listen for the echo beneath the snow. The pitch tells them where buried obstacles lie, allowing entire traveling parties to cross safely in whiteout conditions.

## BEHAVIOR

Confident, commanding, brave

**HABITAT** Glacial valleys; high tundra

**HEIGHT**

EST.

**1.3 m****WEIGHT**

EST.

**58 kg**

#018

# GLACIERPACK

Avalanche Alpha

ICE

## FIELD DESCRIPTION

Glacierpack lead winter migrations without ever looking back. Every member of the pack seems to know its intention, suggesting their howls carry instructions too low for human ears to detect.

## BEHAVIOR

Noble, protective, decisive

**HABITAT** Polar ranges; glacier fields

## HEIGHT

EST.

**1.7 m**

## WEIGHT

EST.

**92 kg**

#019

# DOZEBUN

Sleepy Hare

LIGHT / WIND

## FIELD DESCRIPTION

Dozebun can sleep through thunder yet awaken instantly when food is unwrapped nearby. Ranchers insist they dream about tomorrow's weather, because their sleeping positions change before every major front.

## BEHAVIOR

Sleepy, gentle, unpredictable

**HABITAT** Meadows; open fields; hilltops

**HEIGHT**

EST.

**0.5 m****WEIGHT**

EST.

**10 kg**

FIELD DESCRIPTION

Zepplop race their own shadows at sunrise and become frustrated on cloudy days. Couriers once trained them to carry urgent messages, though keeping the message attached proved harder than the journey.

BEHAVIOR

Alert, playful, restless

HABITAT

Windy plains; open hilltops

HEIGHT

EST.

0.6 m

WEIGHT

EST.

12 kg

#021

# THUMPBUN

Ground Pounder

LIGHT / WIND

## FIELD DESCRIPTION

Thumpbun test unfamiliar ground with one heavy hop before resting. If the soil is unstable, they refuse to move forward and will physically block companions from taking another step.

## BEHAVIOR

Determined, bold, stubborn

**HABITAT** Rocky meadows; foothills

**HEIGHT** EST.

**1.2 m**

**WEIGHT** EST.

**48 kg**

#022

# RESTORA

Tranquil Guardian

LIGHT / WIND

## FIELD DESCRIPTION

Restora choose a quiet place on the ranch and return to it every evening. Injured Copaimo naturally gather there, even when they have never met the Restora before.

## BEHAVIOR

Calm, nurturing, steadfast

**HABITAT** Quiet meadows; healing groves

**HEIGHT**

EST.

**0.8 m****WEIGHT**

EST.

**30 kg**

#023

# INKWICK

Inkpot Wanderer

VOID / METAL

## FIELD DESCRIPTION

Inkwick leave tiny brush marks at forks in unfamiliar roads so they can retrace their steps. The marks vanish after sunrise, preventing anything else from following their route for long.

## BEHAVIOR

Curious, sly, observant

**HABITAT** Old studios; archive alleys

**HEIGHT** EST.

**0.5 m**

**WEIGHT** EST.

**14 kg**

#024

# INKSHADE

Shade Dabbler

VOID / METAL

## FIELD DESCRIPTION

Inkshade are fond of replacing a person's shadow with a slightly inaccurate copy. The prank ends when the victim notices, at which point the Inkshade emerges nearby and waits to be praised.

## BEHAVIOR

Secretive, playful, evasive

**HABITAT** Moonlit workshops; ruined libraries

## HEIGHT

EST.

**0.8 m**

## WEIGHT

EST.

**30 kg**

#025

## INKVEIL

Veiled Calligrapher

VOID / METAL

## FIELD DESCRIPTION

Inkveil write protective symbols around sleeping camps without being asked. No two symbols are identical, yet wild Copaimo consistently avoid crossing them until the travelers awaken.

## BEHAVIOR

Measured, enigmatic, patient

**HABITAT** Temple archives; shadowed halls

## HEIGHT

EST.

1.2 m

## WEIGHT

EST.

52 kg

#026

## INKZENITH

Zenith Scribe

VOID / METAL

## FIELD DESCRIPTION

Inkzenith are rumored to record events that have not happened yet. Their sealed scrolls are kept unread because every attempt to prevent a written event has supposedly caused it instead.

## BEHAVIOR

Aloof, precise, inscrutable

**HABITAT** Forbidden archives; ink sanctums

## HEIGHT

EST.

1.7 m

## WEIGHT

EST.

86 kg

#027

# MUSHMOSS

Spore Stump

EARTH

## FIELD DESCRIPTION

Mushmoss release different spores depending on the mood of the forest around them. A sweet scent means the ecosystem is healthy; a metallic odor often precedes disease among nearby trees.

## BEHAVIOR

Sleepy, placid, quietly clever

**HABITAT** Damp forests; shaded clearings

**HEIGHT** EST.

**0.8 m**

**WEIGHT** EST.

**45 kg**

#028

# MOSSBARK

Spore Guardian

EARTH

## FIELD DESCRIPTION

Mossbark stand guard over fallen trees until every part has returned to the soil. They view decay as a sacred duty and react fiercely to anyone who wastes what the forest can reuse.

## BEHAVIOR

Steadfast, protective, patient

**HABITAT** Old-growth forests; mushroom groves

**HEIGHT** EST.

**1.8 m**

**WEIGHT** EST.

**210 kg**

#029

# NOCTILOOP

Loop Snail

VOID

## FIELD DESCRIPTION

Noctilloop trace the same circular path each night and vanish at the exact point where moonlight ends. Following the complete loop is said to reveal entrances hidden during the day.

## BEHAVIOR

Shy, cautious, nocturnal

**HABITAT** Caves; ruins; moonlit paths

**HEIGHT**

EST.

**0.5 m**

**WEIGHT**

EST.

**13 kg**

#030

# LOOPSHADE

Veiled Roller

VOID

## FIELD DESCRIPTION

Loopshade leave several overlapping trails despite traveling only once. Predators that choose the wrong trail often wander in circles until dawn while the Loopshade watches from nearby darkness.

## BEHAVIOR

Elusive, watchful, reserved

**HABITAT** Deep caves; abandoned roads

## HEIGHT

EST.

**0.9 m**

## WEIGHT

EST.

**38 kg**

#031

# NOCTILOOP PRIME

Eclipse Spiraler

VOID

## FIELD DESCRIPTION

Noctiloo Prime appear at sites where people have forgotten why a structure was built. Some Wardens believe they consume abandoned memories, leaving only the shape of the mystery behind.

## BEHAVIOR

Silent, solemn, unknowable

**HABITAT** Lightless caverns; eclipse sites

**HEIGHT**

EST.

**1.4 m****WEIGHT**

EST.

**84 kg**

#032

# PEBBLIT

Crystal Burrower

EARTH / CRYSTAL

## FIELD DESCRIPTION

Pebblit swallow tiny mineral fragments and later polish them smooth inside their bodies. They offer the brightest pebble to companions they trust, then become upset if it is treated as ordinary stone.

## BEHAVIOR

Sturdy, calm, inquisitive

**HABITAT** Rocky plains; caves; crystal groves

## HEIGHT

**0.4 m**

## WEIGHT

**16 kg**

#033

# ROCKBUN

Crystal Hopper

EARTH / CRYSTAL

## FIELD DESCRIPTION

Rockbun gather before earthquakes and press their ears against the ground in perfect unison. Villages near crystal groves use the direction they face to predict where tremors will be strongest.

## BEHAVIOR

Energetic, reliable, determined

**HABITAT** Stone terraces; crystal caves

## HEIGHT

**0.8 m**

## WEIGHT

**48 kg**

#034

# GEOMORROW

Crystal Guardian

EARTH / CRYSTAL

## FIELD DESCRIPTION

Geomorrow can cause dormant crystal seams to glow without disturbing the surrounding rock. Prospectors consider it bad luck to mine any vein illuminated in this way.

## BEHAVIOR

Protective, grounded, vigilant

**HABITAT** Crystal groves; mountain caverns

## HEIGHT

**1.5 m**

## WEIGHT

**135 kg**

#035

# SPRIGGLE

Seedling Tumblebeast

EARTH

## FIELD DESCRIPTION

Spriggle bury favorite objects and grow temporary root markers above them. The markers resemble tiny versions of the owner, making a Spriggle's hiding places surprisingly easy to identify.

## BEHAVIOR

Curious, loyal, playful

**HABITAT** Forests; overgrown fields

## HEIGHT

**0.4 m**

## WEIGHT

**11 kg**

#036

# VINEBURROW

Rootwhisker Guardian

EARTH

## FIELD DESCRIPTION

Vineburrow sense footsteps through their whiskers and can distinguish familiar ranch hands by gait alone. They often begin waiting at the gate several minutes before their Warden returns.

## BEHAVIOR

Loyal, industrious, attentive

**HABITAT** Soft, nutrient-rich woodland soil

## HEIGHT

**0.7 m**

## WEIGHT

**28 kg**

#037

# THORNVINE

Thorned Vanguarden

EARTH

## FIELD DESCRIPTION

This Thornvine weaves living shelters before heavy rain and leaves one entrance open for smaller creatures. It closes the shelter only after counting every heartbeat inside.

## BEHAVIOR

Alert, tenacious, protective

**HABITAT** Dense woodland; thorny clearings

## HEIGHT

**1.4 m**

## WEIGHT

**62 kg**

#038

# VERDANTINE

Verdant Warden

EARTH

## FIELD DESCRIPTION

Verdantine remember every Warden who cared for their earlier forms. When revisiting an old home, they cause dormant seeds to bloom along the exact paths those Wardens once walked.

## BEHAVIOR

Wise, gentle, resolute

**HABITAT** Ancient forests; sacred gardens

## HEIGHT

**2.2 m**

## WEIGHT

**108 kg**

#039

# TIDEPLOD

Brine Hopper

WATER

## FIELD DESCRIPTION

Tideplod fill their cheek sacs with water from the first pool they consider home. Even after traveling far inland, they refuse to release the final mouthful unless they find a safer pool to replace it.

## BEHAVIOR

Friendly, adaptable, hungry

**HABITAT** Tidepools; rocky shores; mangroves

**HEIGHT**

EST.

**0.5 m****WEIGHT**

EST.

**18 kg**

#040

# TANGLEAP

Seaweed Skipper

WATER

## FIELD DESCRIPTION

Tangleap anchor loose kelp beds before coastal storms, creating refuge for young sea life. Fishers consider a shoreline guarded by several Tangleap a sign that the season will be generous.

## BEHAVIOR

Lively, nimble, curious

**HABITAT** Kelp beds; mangrove shallows

**HEIGHT** EST.

**0.8 m**

**WEIGHT** EST.

**30 kg**

#041

# SHELLDRUBB

Rock Crusher

WATER

## FIELD DESCRIPTION

Shelldrubb collect broken shells after battles and press them into their armor. Older individuals carry fragments from dozens of coastlines, creating a record of every territory they have defended.

## BEHAVIOR

Patient, stubborn, dependable

**HABITAT** Shell banks; rocky coves

**HEIGHT**

EST.

**1.0 m****WEIGHT**

EST.

**95 kg**

#042

# RIPTAILER

Wave Chaser

WATER

## FIELD DESCRIPTION

Riptailer swim against powerful currents simply to learn where they lead. Once satisfied, they return by the fastest route and guide their group through water no other member has explored.

## BEHAVIOR

Swift, focused, predatory

**HABITAT** Open channels; coastal reefs

**HEIGHT** EST.

**1.1 m**

**WEIGHT** EST.

**42 kg**

#043

# FOAMELLO

Plankton Bloom

WATER

## FIELD DESCRIPTION

Foamello glow more brightly when surrounded by companions. Large groups turn quiet lagoons into fields of moving stars, a display coastal communities celebrate as the start of summer.

## BEHAVIOR

Dreamy, fluid, sociable

**HABITAT** Luminous shallows; calm lagoons

**HEIGHT** EST.

**0.9 m**

**WEIGHT** EST.

**26 kg**

FIELD DESCRIPTION

Velluma steal loose notes from desks and return them in a more useful order. Scholars disagree on whether this is intelligence, mischief, or the wind itself correcting their work.

BEHAVIOR

Whimsical, evasive, observant

HABITAT      Windy libraries; high terraces

HEIGHT      EST.

0.6 m

WEIGHT      EST.

5 kg

#045

# PAPIRUS

Gale Scribe

WIND / MIND

## FIELD DESCRIPTION

Papyrus write brief messages in drifting air currents that only the intended reader can hear. The words disappear after being understood, making them prized partners for discreet Guild work.

## BEHAVIOR

Studious, clever, composed

**HABITAT** Archive courtyards; breezy towers

**HEIGHT** EST.

**0.9 m**

**WEIGHT** EST.

**9 kg**

#046

# SCRIPTAIR

Tempest Scribe

WIND / MIND

## FIELD DESCRIPTION

Scriptair can remove the emotional weight of a painful memory without erasing the event. Wardens seeking this aid must offer an honest written account before it will agree to help.

## BEHAVIOR

Precise, enigmatic, disciplined

**HABITAT** Sky archives; cliff monasteries

**HEIGHT**

EST.

**1.3 m****WEIGHT**

EST.

**15 kg**

#047

# AETHERIUS

Storm Archivist

WIND / MIND

## FIELD DESCRIPTION

Aetherius visit the Great Archive during the season's strongest storm and remain perfectly still at its center. Each appearance is followed by the discovery of knowledge thought lost for generations.

## BEHAVIOR

Sage, serene, authoritative

**HABITAT** Great Archive; storm sanctuaries

## HEIGHT

EST.

**1.8 m**

## WEIGHT

EST.

**24 kg**
